## COMPANY PROFILE

GEMINY is India's leading manufacturer of Domestic & Industrial Sewing Machines and accessories. Geminy, Three Star and Premier are our leading brands. In 1981, we had set up a semi-mechanized foundry with a rich background in sewing machine assembly. In order to modernise the process and improve the quality and quantity of casting, we have now upgraded to a fully mechanised process. At present, the total covered area of the world-class production facility is 12,000 sq. meters in 50,000 sq. meters of land in government approved Industrial Area at Ludhiana, Punjab. This state-of-the-art production facility is located on the National Highway, Ludhiana- New Delhi Road. It is within close proximity to the ICD. We currently produce 600,000 sewing machines and 120,000 sewing machine stands per annum.

In 2020, a new Machining division with manufacturing Capacity of 150,000 High speed Lock Stitch Self Lubricated Sewing Machines per annum has been setup with an addition of 30 HMC, VMC & CNC machines from Tongtai & Hyundai to strengthen our machining facilities for uniform machining. We continuously upgrade our machining setup with new automatic hydraulic SPMs which are designed & manufactured in house. A new fully conveyerised paint-shop and Powder Coating plant has been installed which has improved the quality and durability of our product.

This advanced setup is complimented with Two New Fully Automatic Horizontal and One Fully Automatic Vertical Flask-less High pressure Molding Lines from Koyo, Japan with combined capacity of 600 Molds per hour.

Our world-class testing & R&D facilities include the latest technology like AMTEK make Spectrometer, ZEISS coordinate measuring machine (CMM) & fully equipped Standard Room.

We are proud to state that our in-house capabilities and an extensive product profile has helped us fulfil our customers' requirements within their timelines and quality standards by following our rigid process controls, standardisation and optimised scheduling, making GEMINY a preferred partner for win-win strategic alliances.
